MAKING INROADS ON SOMME LINES

Serre Attacked and Portion of Position Taken.

(Associated Press War Summary.) By sharp thrusts north of the Ancre on the Somme front, the British are making inroads upon the Germans lines there, Today another attack is reported Berlin announcing an assault on Serre, resulting in a footing being gained by the British in one advanced position, the Germans bowever, retaining the

In Rumania it is the Teutonic side that continues to gain, both along the Moldavian west frontier and down the line southwestward to the Danube Northwest of Brails the Russians lost another town when Mihalea was stormed by Turkish troops who drove part of the garrison into the Sereth, where the men drowned trying to escape and cantured the remainder of the number of 400

Bulgarian forces captured a monas tery at the junction of the Buzeu and Sereth to the northeast and on the Moldavian line German troops pushed forward in the Slanic valley effecting important captures of materials. Heavy

Second Issue Out Soon—The second is suce of "Oklahoma," the official organ of the Chamber of Commerce, will be mailed to members of the chamber and We'll tell you Monday who he is.

Lean of the Russell Sage foundation, who is siding the United Provident association in its social survey of Oktahoma City, will be among the speakers at the mainbers' meeting of the Chamber of Commerce next Thursday at the Lee-Huckins hotel.

CHANGE IS SIMPLY **WONDERFUL SAYS** OKLA. CITY WOMAN

Mrs. Campbell Had No Idea Any Medicine on Earth Would Do Her the Good Tanlac Has.

Hundreds of Oklahoma City people, both men and women, are now taking Tanlac with the most astonishing and gratifying results and numbers have called at the Westfall Drug company in the past few days to tell what it has done for them.

Among the number who have realized the powers of the medicine is Mrs. Louella Campbell, residing at 315 California avenue. Mrt. Campbell is the vife of John C. Campbell, a veteran locomotive engineer, who for twenty years was engineer on the L. & N. railroad out of Nashville, Tenn., and Oklahoma City for a number of years employes. and are well known and highly re-Campbell has been an honored member of the Woodman Circle for twelve the state association years. In an interesting interview with the Tanlac representative a few days MOVEMENT FOR ago. Mrs. Campbell said:

"Oh! I'm so glad Tanlac has comb to this city and I found out about it. I had been reading about how it was belping so many of my friends in Nashville where we used to live and I made up my mind if it ever came here much in so short a time

"I had suffered from constinution all my life and had headaches a lot of the time. For the past four years condition and I just suffered with in- sands of

into gas and puti me all up and give such awful smothering spells 1 could hardly stand them. My stomach was so tender and hurt me socat times I couldn't bear for my clothes to touch me. I was so nervous and upset

all the time I could hardly sleep at all I think it's just awful to be in such fix and not be able to get anything to help you, but that's the condition was in before I began taking Tanlac After taking Taulac about three days began to get hungry and things tasted better and I ate some hot pancakes and they didn't hart me one bit. Since then I have eaten fruit cake and cands and nuts and have had only one slight attack of my old trouble since I began my being a little too hasty in eating so heartily after suffering so long

I had tried most everything in the dicine line and got no relief and I think it is Teally wonderful that I have be ordered soon, probably next week made such a great improvement on one bottle of Tanlac. I'm not constipated like I was and my headaches and nervousness have been greatly relieved. I don't have the sour stomach and ganow and those awful smothering spells have stopped troubling me. Of course know it will take a little time for de a wonderful change in me. 1 al-

who spoke in the public places last au-known as beige, twine and biscuit. sters descended to 15 degrees above tumn, saying that the straight line of zero last night-the lowest since the medievalism in clothes would be overpopular for the hour and would, therefore, drop out of existence. So far this prophecy has not come true, or, at least, the latter part of it. There were fascember when the city's coal supply tidious women who rejected the medie was exhausted during temperatures of October. They thought that such an abrupt revolution from what existed was an experiment on the part of the designers, and that it would be better to wait and see whether the revolution would succeed before they lent aid and prestige to it.

When the thousand or more French models arrived in October, the medieval gowns were the ones to catch the sharpened attention of those who are looking for novelties to discuss or to imitate. The vast public passed these gowns by. The shops insisted upon showing frills and bouffant skirts, light bodices, taffeta and the whole scheme of things that were worn last year and called Louis Quinze.

The Straight Gown Arrived.

People laughed at the prophets who said that the day of these fashions was over and advised women not to put good money into old styles. However, no how emphatically the experts talked, the reporters wrote, and the ultra-smart shops suggested, the story of the revival of twelfth century cloths

This situation continued for about two months, and suddenly, over night as it were, the world of women burst into twelfth century gowns. It may be said that they are worn more outside and styles always present in this city that if is more difficult to put the finger on as large a group of people wearing one particular fashion than in a less cosmopolitan place.

The popularity of all manner of me dieval lines is pronounced, and, although it is quite true that the ready moon the principles of "safety first" in from a 38-caliber revolver was found to-wear shops offer every kind of imthe print shop. "The Morning After"

(By DR. L. W. BOWER.)

One of the characteristic headaches due to uric acid in the system, which acts as a poison when it accumulates, is due to alcohol taken the night before. The kidneys do not succeed in throwing off this poisonous accumulation, the stomach is nauscated, or the blood congests in the head, causing throbbing pain, called headache-the heart is depressed, circulation of blood poor to the extremities, the muscles feel tired. or twinges of pain here and there are felt, and when this uric acid is deposited in the tissues or joints it causes rheumatism or gout. I always advise the drinking of hot water, a half pint in the morning, and a little Anuric. Some-times the "blues," or a sort of rash, or a pimply face gives warning of an "uric acid storm." At such times always take Anuric (double strength), which can be obtained at almost any drug store, and which you will find dissolves the uric acid almost as hot water does sugar.

Avoid too much meat, tea and alco-Drink an abundance of water, both hot and cold. Take Anuric three times a day until the bad symptoms all subside. This is the best way to avoid rheumatism and many of the pains and aches due to a uric acid condition. If you drink any alcoholic beverage you should keep the kidneys and liver active with Anuric, so as to throw off the poisons which accumulate. If your tongue is coated a dark brown taste breath foul followed sometimes by colds, indigestion, biliousness, constipation or sour acid stomach, you should take some vegetable laxative. Such a one is made in sugar-coated form from the May-apple, leaves of aloe, and root of jalap, and commonly sold by almost all druggists as Dr. Pierce's Pleasant Pellets. They are standard and have been in ready-to-use form for nearly fifty years .- Adv.

For Skin Irritation

There is one safe, dependable treatment that relieves itching torture and skin irritation almost instantly and that cleanses and soothes the skin.

Ask any druggist for a 25c or \$1 bottle of zemo and apply it as directed. Soon you will find that irritations, pimples, black heads, eczema, blotches, ringworm and similar skin troubles will disappear, A little zemo, the penetrating, ratis-fying liquid, is all that is needed, for it banishes all skin eruptions and makes the skin soft, smooth and healthy.
